

Panel discussion on data management

Tuesday, 31 May 2022 15:00 (1 hour)

The discussion would go in the direction towards cross-disciplinary and cross-border data and service interoperability. The key focus of the panel debate will be towards the following two questions:

What is the most important activity or initiative in your field securing cross discipline & cross boarder interoperability?

What do you see as the next challenge and how do you plan to address it?

Moderator: Birte Christensen-Dalsgaard (Chair of the national Data Management Forum, DK)

Speakers: Mari Kleemola (University of Tampere, FI), Anders Conrad (DeiC, DK), Peter Løngreen (Director Danish National LifeScience Supercomputing Center), Sara Garavelli (Director, EOSC Association), Anne Claire Fouilloux (UiO & NeIC, NO), Malvika Sharan (Alan Turing Institute, UK)

Size of poster

Session Classification: Data management & Science session
