Intro

‚Container in HPC Workshop 101'

Christian Kniep, NeIC'22

Goal

What do we want to achieve?

1. Get the record straight on Containers (not only in HPC)

2. Talk about the nomenclature: Image, Snapshot, Runtime, Engine, Scheduler

3. Get everyone to experience the above first hand

4. Point folks to potential issues they are going to need to look out for

5. Main point: Get your questions answered, so please feel free to interrupt at any time…
