

Sensitive data

Wednesday, 1 June 2022 08:30 (2h 30m)

Speakers: Marcus Lundberg (Uppsala University, SE), Francesca Morello (CSC, FI), Eirik Haatveit (USIT/UiO, NO), Hossein Aghili (DTU, DK)

Sensitive data is data that needs to be protected against unauthorized access. Protection of data may be required for legal or ethical reasons, for issues pertaining to personal privacy, or for proprietary considerations. Nordic sensitive data services provides facilities for storing and analysing sensitive data for reseachers, organizations and educational purposes.

This workshop is a collection of demos/presentations by experts representing the service providers on the scope and usage of the services, and is organised by EOSC-Nordic WP5

Agenda:

08:30 - 09:00 CSC Sensitive Data Services - Francesca Morello
