BSides Ume 2023
Umeå, Sweden

Overview

- Welcome
- Venue
- Food
- Photography
- Timetable

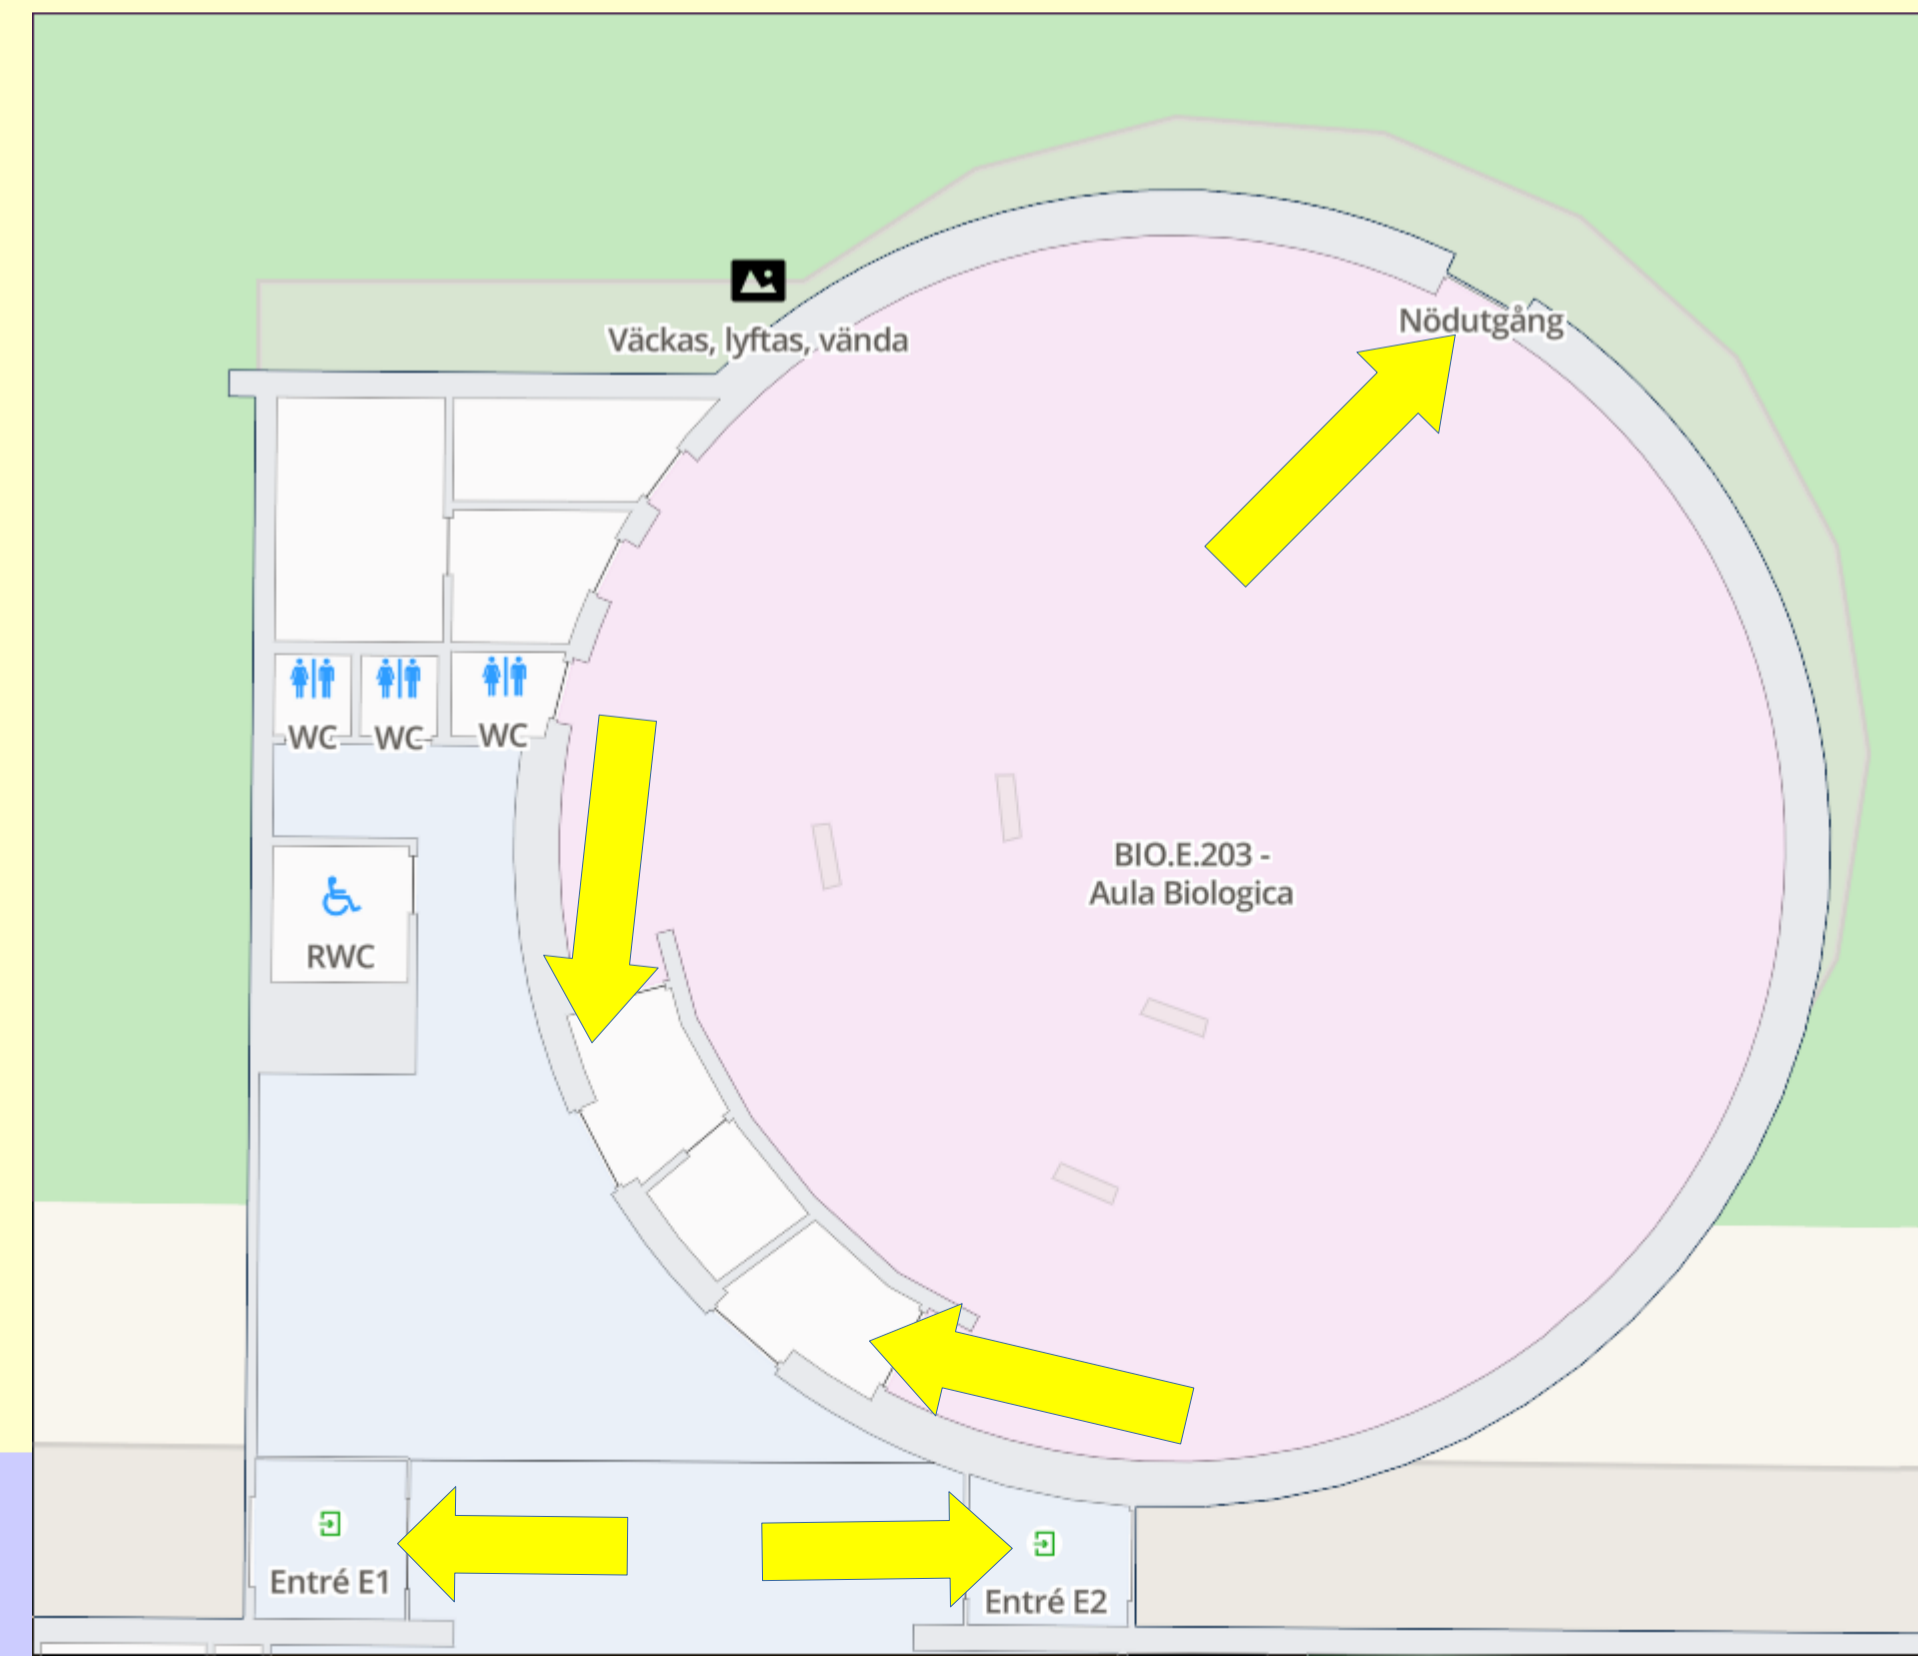

Welcome

- Welcome to BSides Ume 2023!
- Organizer: Academic Computer Club in Umeå
 - Mostly me
 - With a bunch of help from others
- Thank you to our gold sponsor Omegapoint and all the other sponsors for improving fee/food ratio!
- Thank you speakers for speaking!
- We are all happy to have you here!

Venue

- Using the microphone for asking questions is polite
- No eating and drinking in this room
 - University cleaning bill would be unpleasant for the club
- Coffee breaks in lobby
 - And student kitchen
- Outside doors locked
 - Except during coffee breaks
- We will lock the room
 - Please exit timely at breaks
- Emergency exits:

Food

- We will go to lunch at Hansson & Hammar IKSU
 - 500m walk to the the University Student Sports Club (IKSU)
 - Organize into a coherent group just outside the restaurant
 - I will count us in and pay
 - Then salad and warm food buffet with refills, drinks, bread, and optional coffee afterwards
- Coffee break in the afternoon much like this morning
- Those of you who have registered for dinner, be outside Sjöbris no later than 19:00

Photography

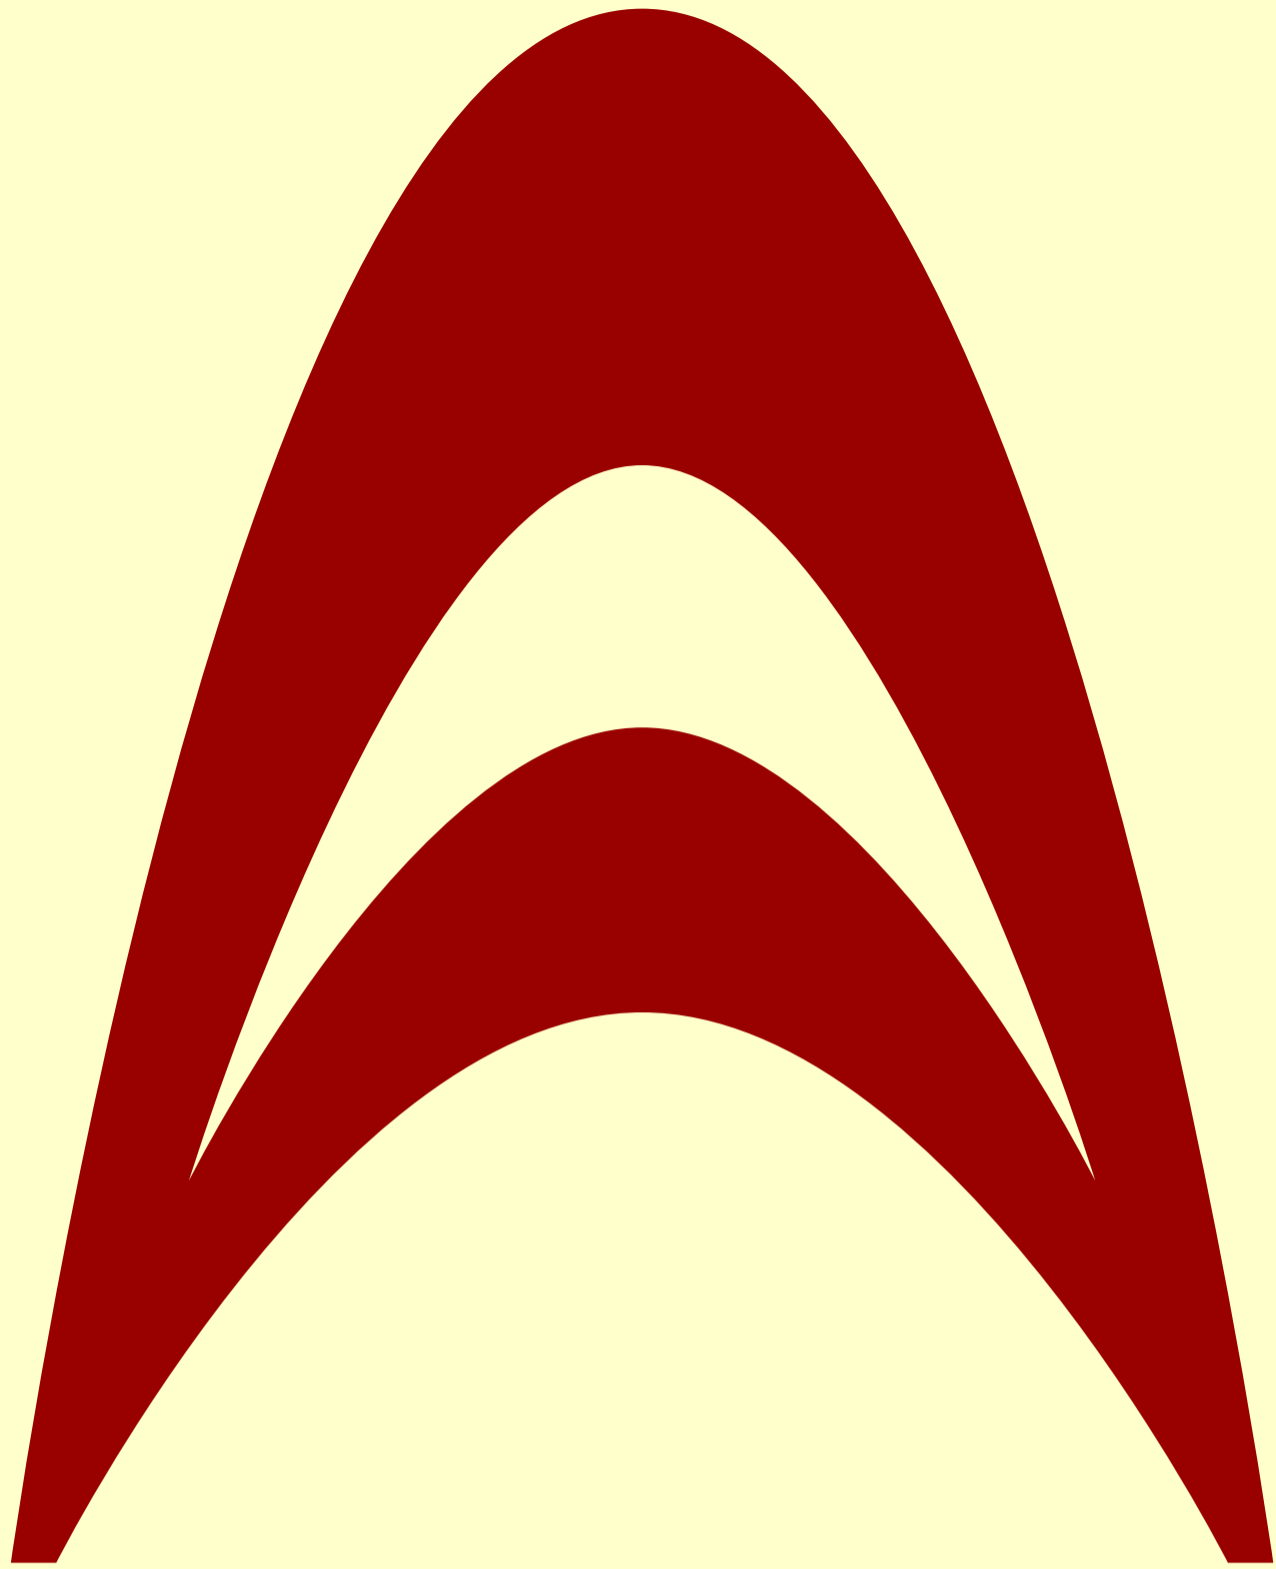

- We have received several requests to record talks
- We'll record and publish talks by speakers who agree to this
- We won't record any Q&A sessions to have better dynamics in the room for discussion
- We're planning on some still photography in the breaks etc, any objections?

Timetable

- Timetable in Indico
 - <https://indico.neic.no/event/244/timetable/#20230627.detailed>
 - Some speakers might upload materials, like me with these slides, for reference
- Outer doors open during the coffee breaks only
 - It would probably be suboptimal to leave them open with all the food unguarded from starving students and then try to have a break with someone having to open the doors over and over
 - Don't let the timetable slip too much until the last session?
