

Workshop: Sensitive Data Part II

Wednesday, 29 May 2024 15:00 (1 hour)

We will start (Sensitive Data) session 2 with a discussion regarding the requirements for the sensitive data processing environment and present a plan for the LUMI EuroHPC supercomputer.

You learn to use an encryption tool on your laptop.

You will get an overview of the production and development plans for some of the HPC systems in Nordics.

In the end, we will discuss how to do collaboration in Nordic, and we can hear some examples of ongoing activities.
