NORDIC E-INFRASTRUCTURE COLLABORATION

Noteworthy Events

- Change of our dCache developer
  - 0.5 FTE of dCache development and operations support
  - Previous one left for another job in August
  - New contract signed as of 2025-01-01

- We will not be moving away from NeIC branding with any urgency during 2025
  - To be re-evaluated once there is a long-term solution and contract in place
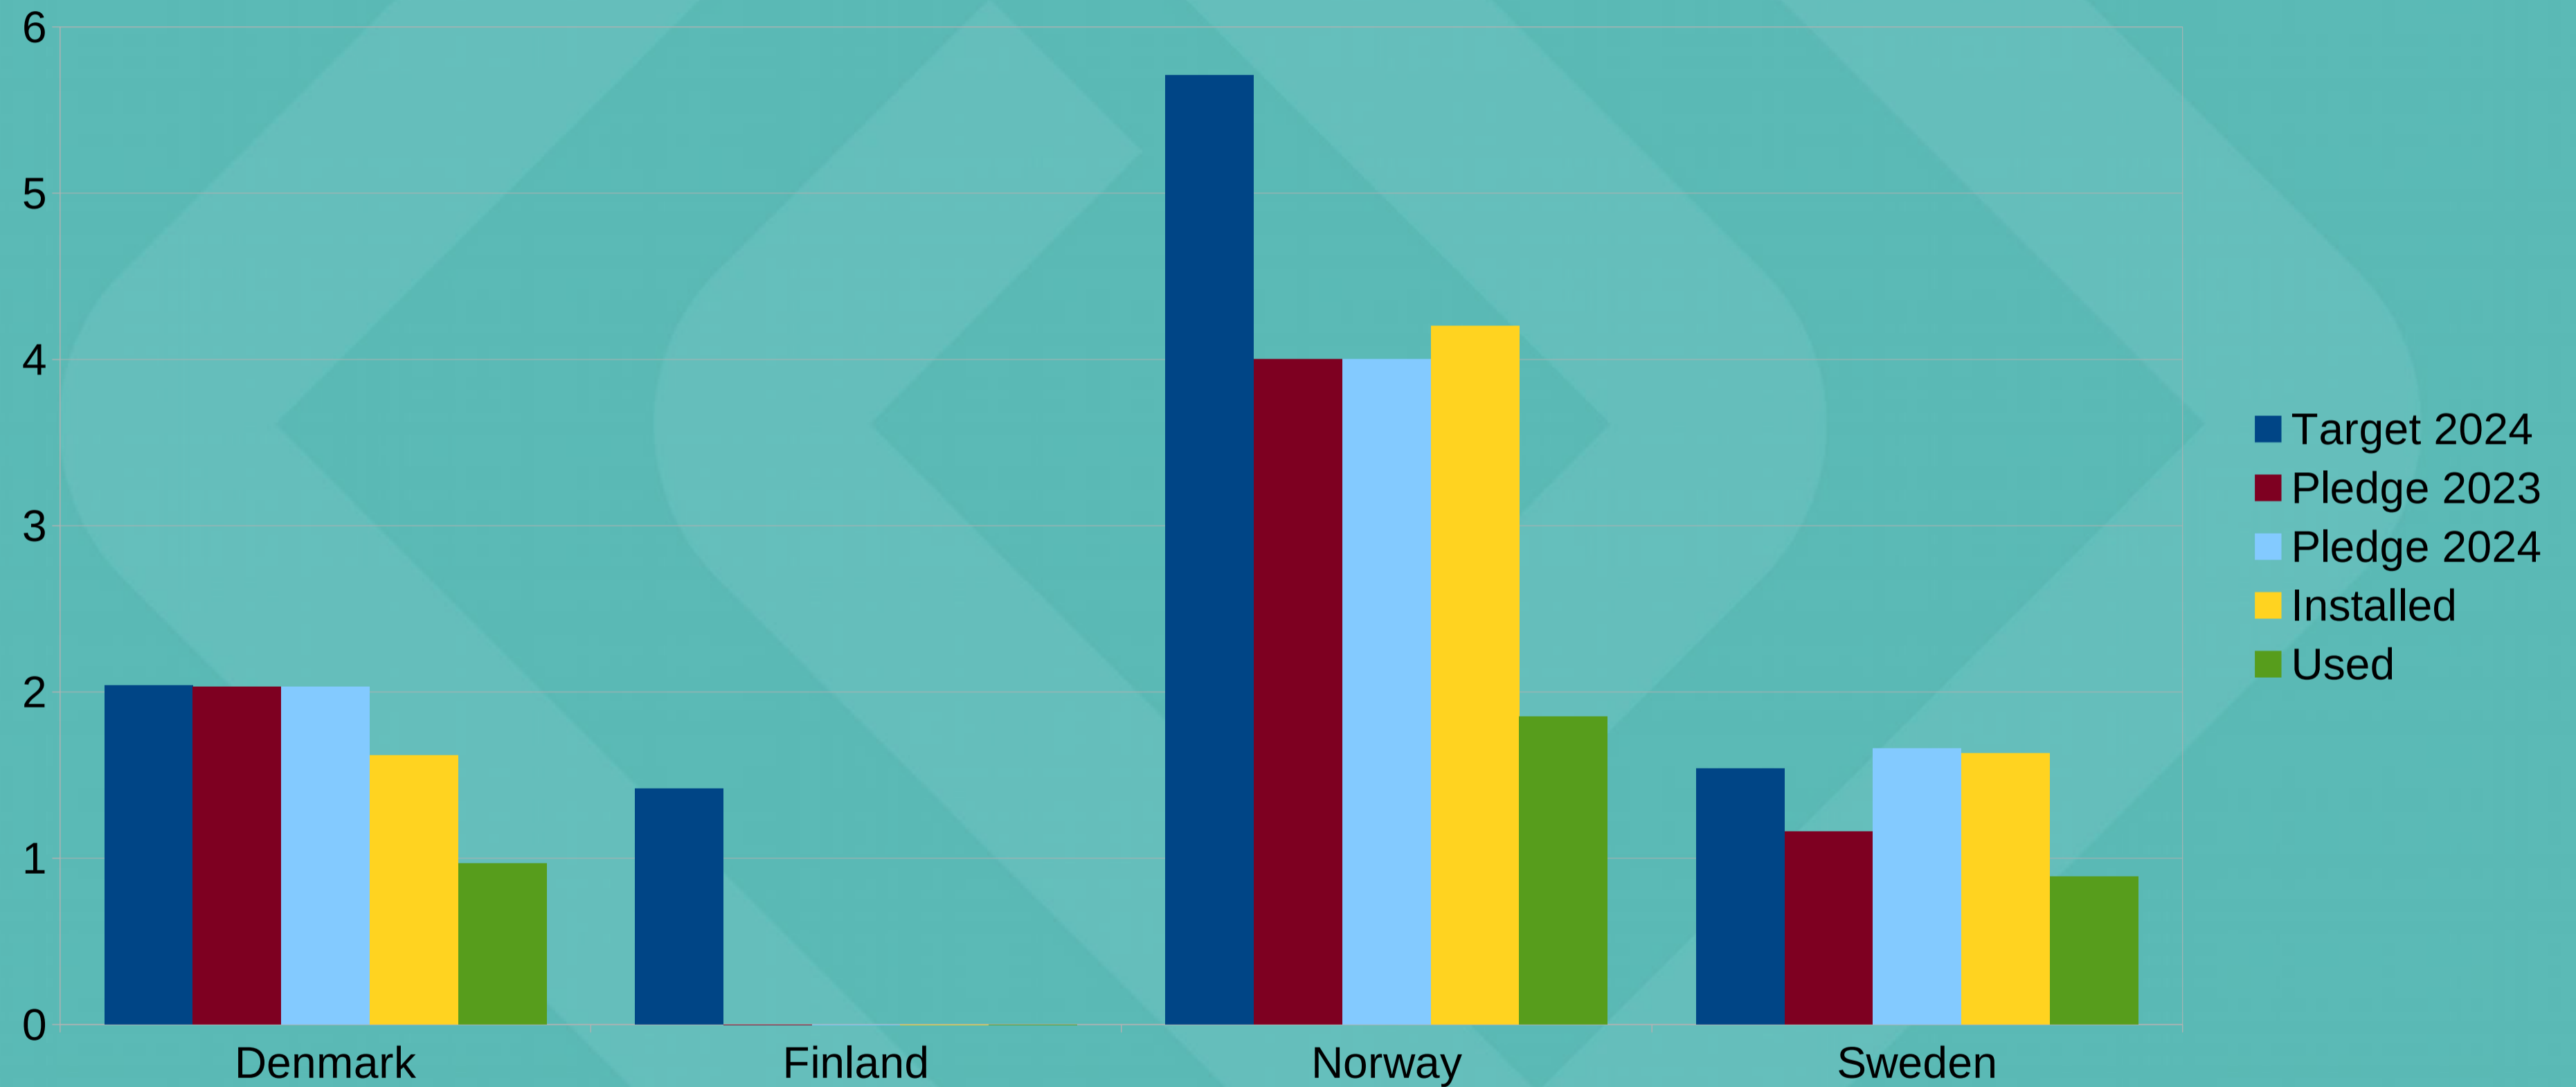

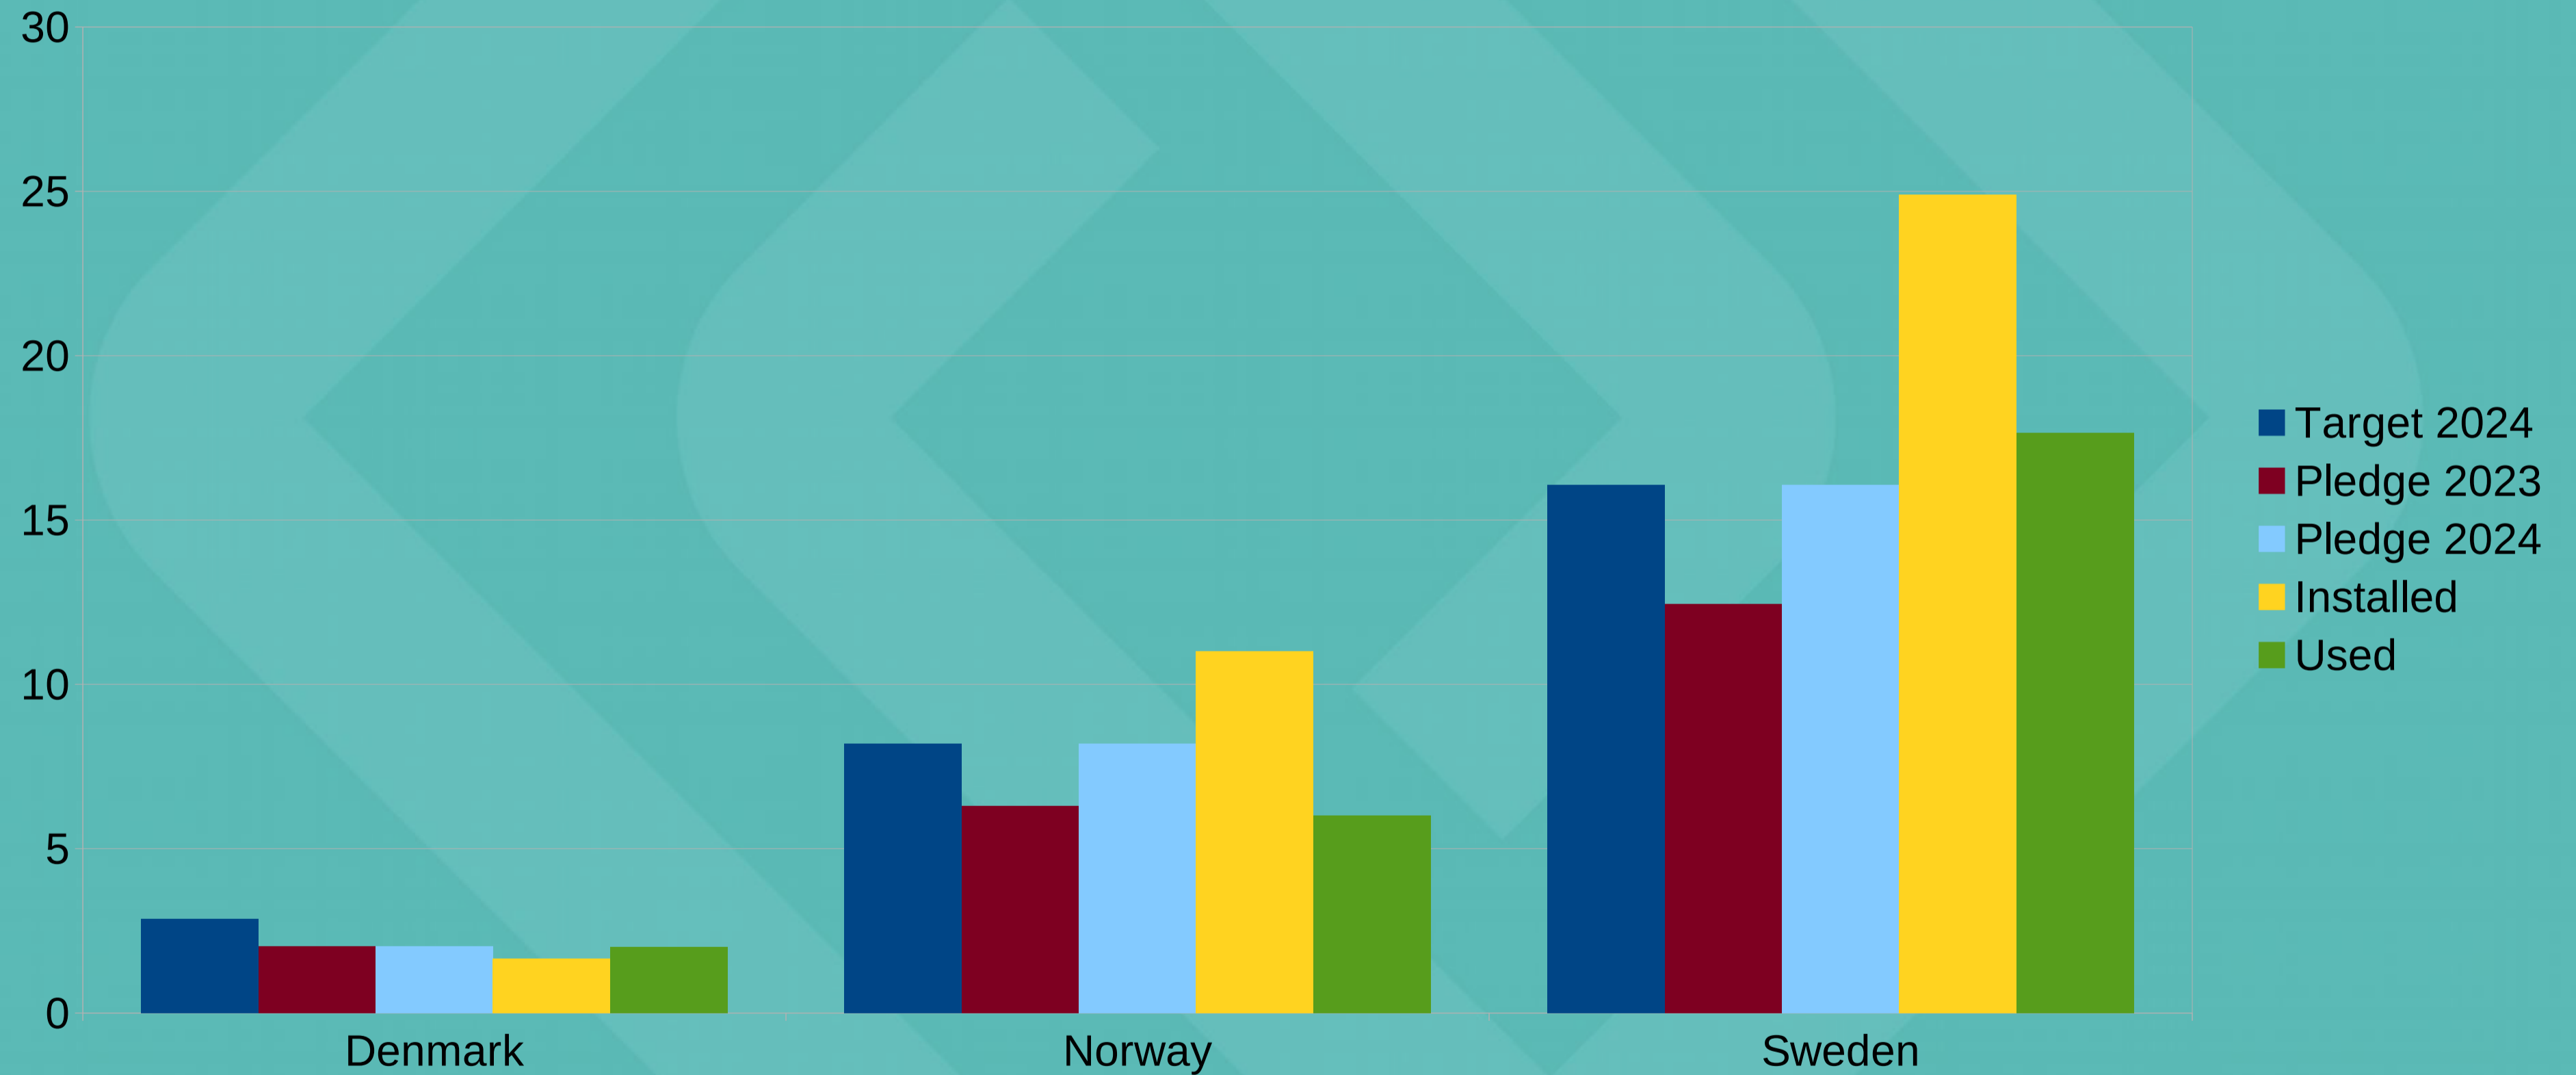

Resource changes

- New UiO disk still pending
  - The new software with fixes for performance cleared things up enouh to show vendor issues
 - So still pending, but for other reasons this time…

CPU Usage Comments

- ALICE not using all of our compute due to lack of jobs
  - Filling capacity often but not always
    - Better so far after Q3, perhaps with the new data from HI run?
  - Sweden has some kind of compatibility issue that breaks jobs, but neither NSC nor ALICE has figured out why
- HPC2N's new cluster Aigert still with staging issues
  - Average 30-40% fill, but this is still twice pledges for 2024
