Mobile Device Forensics 101

This workshop will give an introduction to mobile device forensics on iOS and Android devices using open source tools. Participants will learn how to acquire the data and where to find the most important bits and pieces related to the goal of the investigation. Participants will also have an opportunity to test their new skills in a CTF.

Length

Half day

Optional: Speaker / convener biography

Timo is currently working as a digital forensics and incident response (DFIR) specialist at Accenture. Prior to his current position, he has worked in various public and private sector organisations on DFIR as well as in-house security operations.

Primary author: MIETTINEN, Timo
